

ILOCX

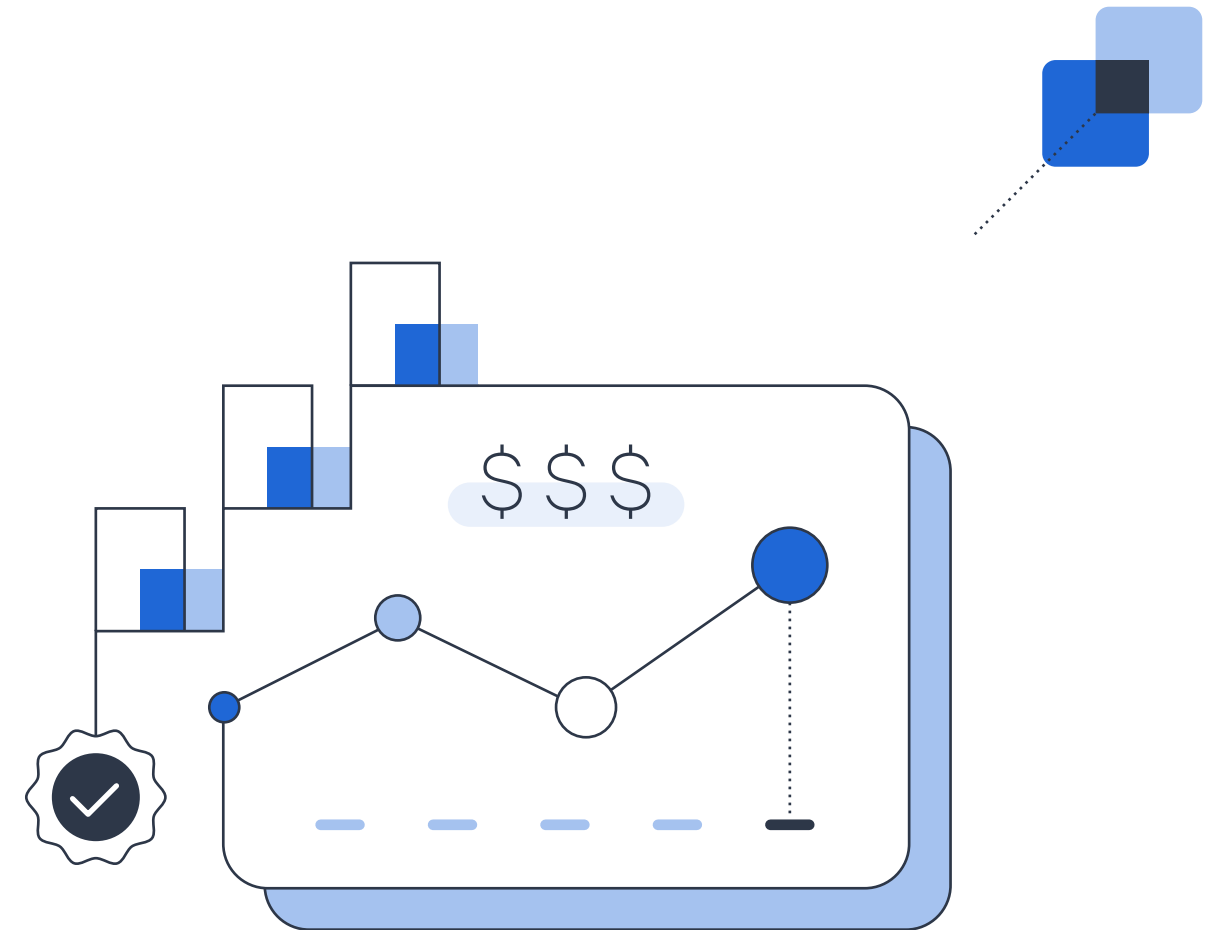

Framework to fund  
and scale sustainable  
businesses

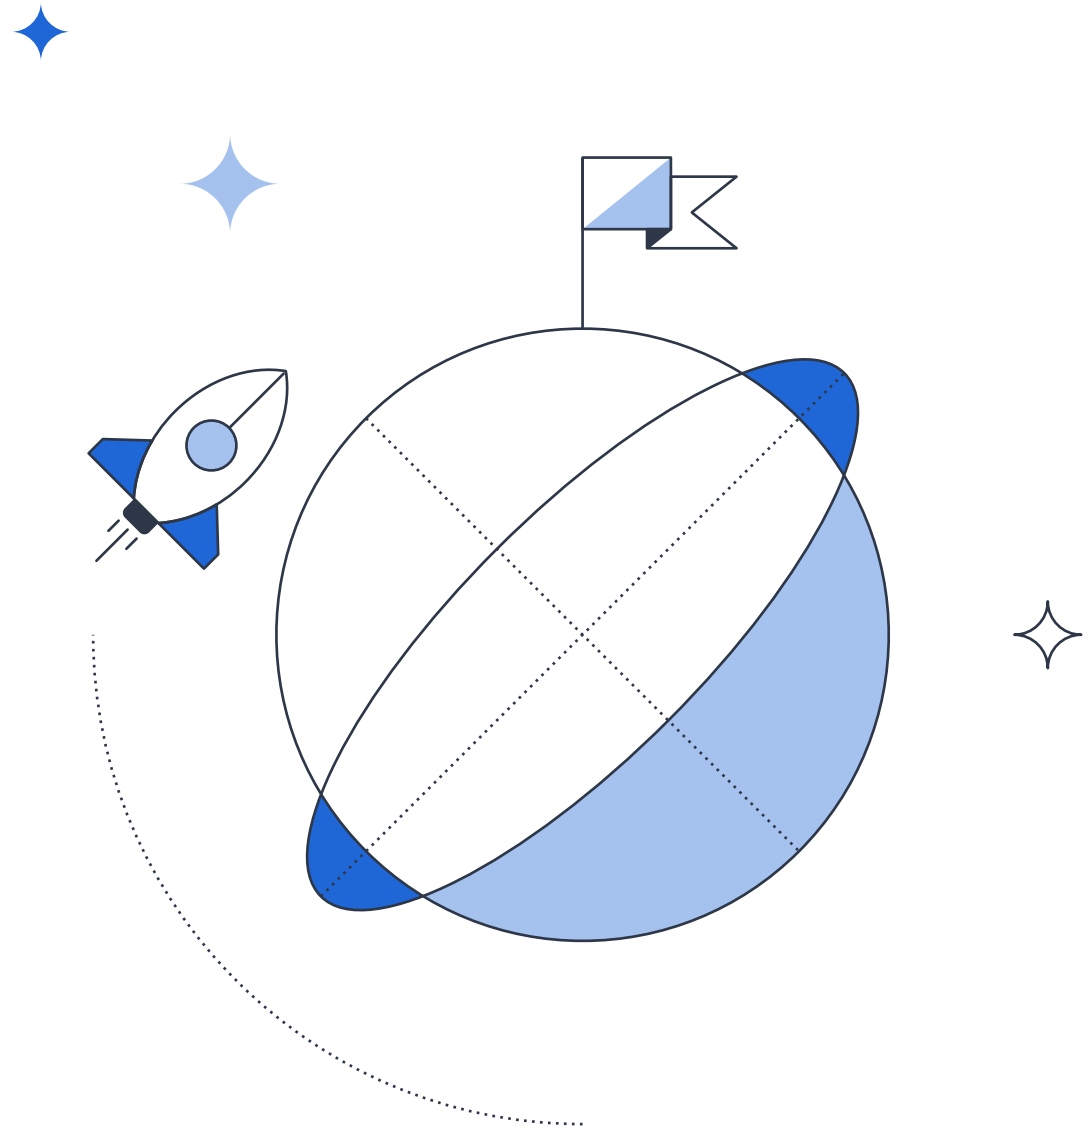

# What is ILOCX?

A licensing framework and platform that enables scalable, sustainable businesses to raise funds on-demand without using equity or debt.

Designed to help businesses reach the scale quickly and efficiently.

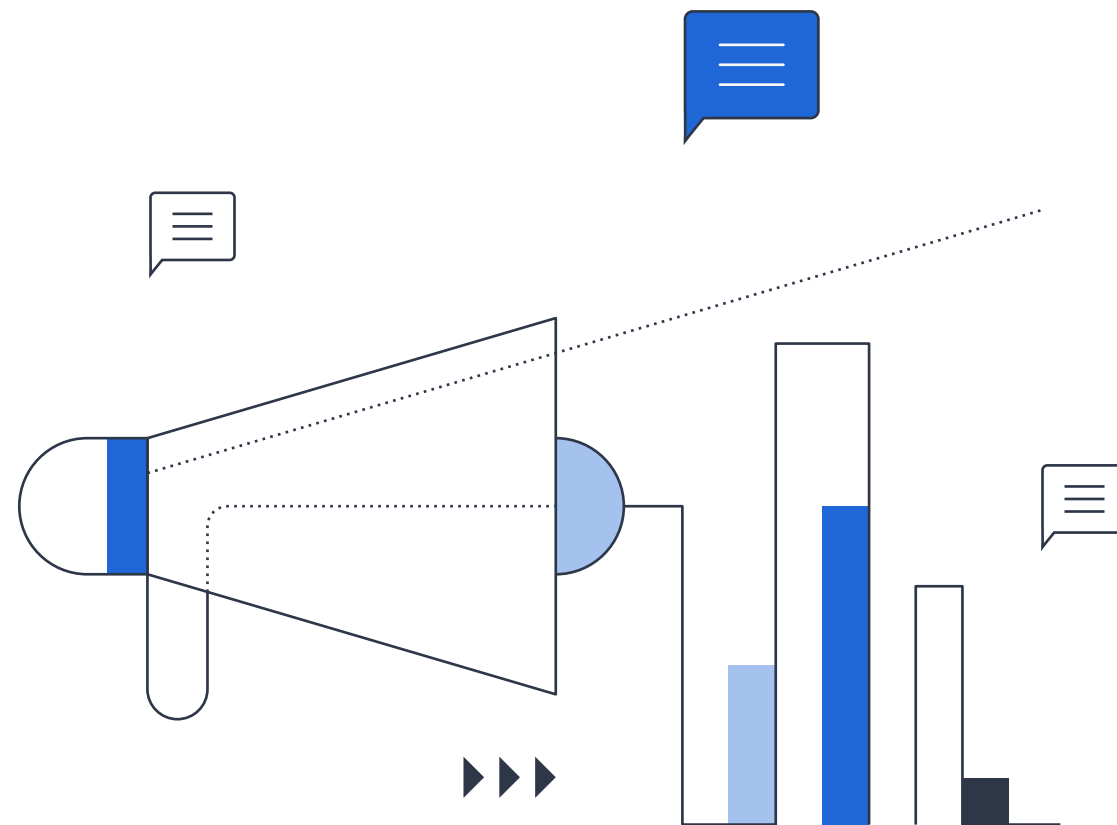

# Our Mission

- Provide businesses with the tools, support & funds they need to scale rapidly
- Offer a worldwide compliant framework that allows everyone to participate and gives listings access to a global pool of buyers
- Support sustainable businesses in their growth
- Create local opportunities that benefit the communities they serve, generate local jobs and local growth

And this is how we do it...

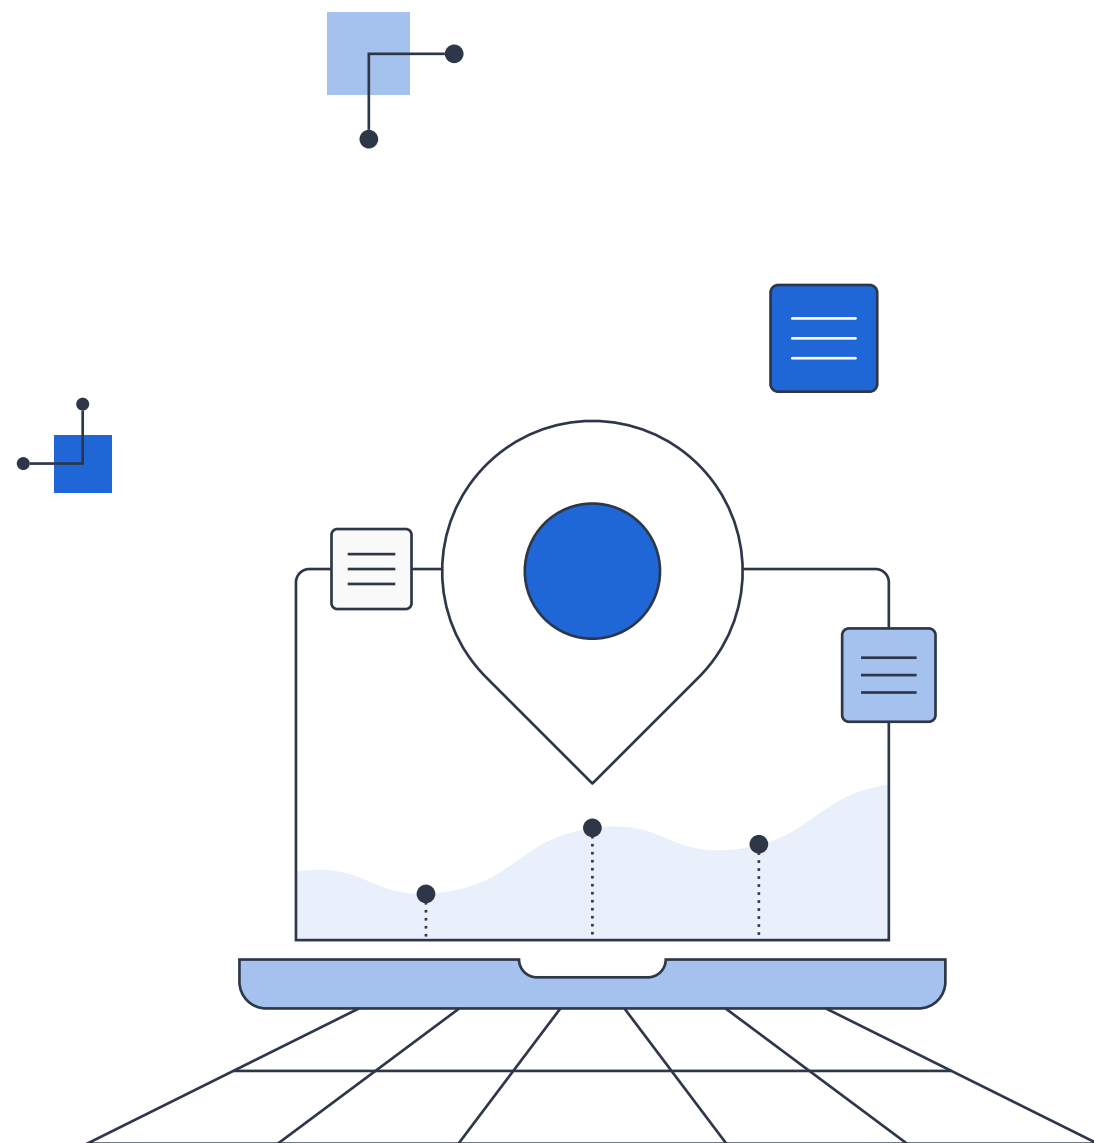

# Promotional License

- Raise the money you need to get to the next stage
- Build a group of people incentivised to qualify who also care about and believe in the company
- Increases sales and company profile
- Fairly rewards buyers for their participation through royalties
- Legally binding, compliant worldwide, based on reported revenue

*Aligns the interests of the licensor and licensee - the more and the better job buyers do of qualifying, the more sales made, the more successful the company, the higher the royalty.*

Listings from  
**\$25,000 + 10% of license sales**

# Territorial Licensing

Unlocked by paying first royalty on promotional license.

- Expand proven products and services into new territories
- Work with local experts using an established product and roadmap
- Grow revenue and brand recognition without need for infrastructure
- Local money going into local projects that benefit communities they operate in
- Licensee's unlock their own ILOCX listing and sub-licensing rights

*Aligns the interests of the licensor and licensee - Company wants the licensee to be successful, to contribute to their revenue and enable them to sell more territorial licenses. Licensee wants a scalable product with a proven track record, that they can use to raise and make money, with support from head office.*

# Existing Listings

Millions of licenses issued and sold through our platform,  
with high returns already booked.

	<b>Blue Room</b> BLU	<b>\$133.00</b> +233 %
